

## Stallions at stud

Contributed by  
Friday, 05 October 2007  
Last Updated Thursday, 20 May 2010

A list of stallions currently standing at stud in the UK is set out below. Please note that this is a list of stallions that has been sent to the Society for inclusion on this site. It is not comprehensive and the Society does not endorse the use of any of these stallions.

If you would like your stallion to be included on this site, please contact the Web master.

### Orguloso

Orguloso has been tested as homozygous for the agouti gene, which guarantees 100% of his foals from bay mares will be buckskin and 100% from chestnut mares will be palomino. He will never throw a smokey black. He can also produce double dilutes from mares which have a copy of the cream gene. He has a wonderful disposition and a truly stunning presence.

Due to the fact that he is not yet graded (later this year) he is available at £350 to a limited number of proven mares.

His captivating presence and conformation will suit a range of mares, and of course you get all of this in a fabulous colour!

Orguloso has had 100% of his mares scanned in foal.

Currently he is covering our sport horse mares, we think the results will be spectacularly beautiful horses, with good conformation and movements, finished with stunning colours! Orguloso's first foal crop are eagerly awaited spring of 2011.

please call to discuss.

Pelicano now available at stud in U.K. Winning Grand Prix dressage stallion and twice selected for team trials with Olympic Coach for Spain. Highest graded stallion in Madrid being approved on 77.6%. His Sire Desejo a Gold medallist was approved on 80%, his Dam Oropendola approved on 78.5%, and his full brother was also Grand Prix and ridden by Olympic rider. Fantastic temperament and paces. As first season in U.K. an introductory stud fee of £700, with price increase for next year N.F.N.F. and A.I only. Contact owner Karen Tapscott on 01702-541671 or 07906166839 or karentapscott@btinternet.com. For viewings he is demonstrating for Writtle College, Chelmsford, Essex on 25th April or can be viewed all year at Elm Farm Stud , Great Wakering , Southend , Essex.

{gallery}pelicano:200:200:1{/gallery}

### Saphiro (Umbaba x Epoca)

1999 APSL Approved Cremello Lusitano Stallion. Solid build with substantial bone and excellent type. Saphiro has a huge overstep at the walk, strong topline, lofty movement and a rocking canter that is a dream to ride. His profile is classically baroque and his temperament, of course, exceptional!

Saphiro was the IALHA National Champion Portuguese Jr Stallion and was undefeated at the breed shows in 2009, including winning the ERAHC Classic Sr Stallion class (and recipient of the gold medal movement award) then going on to win Champion stallion of the show! Now showing in dressage, Saphiro has an incredible work ethic. He can turn on his brio when asked, or be ridden quietly bareback by children. Saphiro is an exceptional stallion by anyone's standards

Saphiro is Agouti dominant color tested cremello (eeAACrCr with no grey) so his cream gene will be expressed on his foals (cannot throw smokey black). His buckskin, palomino, and double dilute offspring have more to show for themselves than just their golden coats. They are excelling in all disciplines including Dressage, jumping and working

COWS!

This is Saphiro's first time being offered at stud outside of the USA. Imported from Germany as a foal, he has proven himself a prepotent sire here in the States. He passes on his characteristics to his foals and has an incredible first cycle conception rate (unheard of 100% first cycle conception rate with frozen semen in 2009 domestically) so his semen has been proven and is ready to be taken on the road.

Frozen semen will be available for distribution in the UK in time for the 2010 breeding season at Stallion AI Services Ltd in Whitchurch Shropshire (please do not contact Stallion AI Services with breeding inquiries). We are covering all the expenses and export paperwork to get the semen to the UK saving mare owners the hassle and expense of confusing and costly import. Breedings will be very limited and will be available to quality approved purebred and sport-horse mares.

Contract included a Live Foal Guarantee! Visit our website for up to date information, newest photos and current fees. Multiple mare and early booking discounts available.

## Vinagre

Pure Bred Grey Lusitano 2002

Iberico x Onda

Vinagre carries some of the finest and most homogenous bloodlines in the breed, which makes him an ideal partner for both pure bred Lusitanos as well as other breeds. He is an A.P.S.L Approved Stud Horse\* status being graded at 72.5% under the revised rules.

Currently in Portugal in training for dressage competition, he is showing 3 expressive, loose paces - his walk is exceptional for the breed and his canter has been described by a top international trainer as one of the most elastic he has seen. He possesses an extraordinary memory and particularly nice temperament and manners.

Kazan du Coussoul. 1998.

This charming and superb example of a Lusitano has many qualities. He has a good work ethic and is easy to ride and train, being amenable to everything that is asked of him.

As a four year old he received a gold medal in France. He was the supreme champion in 2005 and vice-champion in 2006 at the International show in Lisbon. He is highly recommended by the APSL .He was bred by Katherine Vaisse and comes from well established highly successful blood lines.

Kazan is now standing at stud at the Haras National, St. Lo, France.

Frozen semen , which complies with International quarantine regulations is available for International export. Fresh and chilled semen is available.

Stud fees; 1400 euros pure blood, 700euros cross breedingE-mail: [ceri.muir@orange.fr](mailto:ceri.muir@orange.fr).
